

# **Arktis Laser Product Datasheet**

# LLS-0543 Low-Noise DPSS Laser System

# **Series Specifications:**

| Nominal Wavelength | 543 nm |
|--------------------|--------|
| Output Type        | CW     |
| Laser Source Type  | DPSS   |

#### Overview:

The LLS-0543 Series of Low-Noise Diode-Pumped Solid-State (DPSS) Lasers are ideal for applications requiring less than 1% noise and output power levels from 20 mW to 2000 mW. These 543 nm lasers maintain a high level of long-term output power stability and long operating lifetime at an aggressively competitive cost.

These lasers are commonly used for fluorescence excitation, PIV, Raman Spectroscopy, and a broad spectrum of other applications. The driver is available as a complete FDA-compliant system or as an O.E.M. component with significantly reduced dimensions.

Laserglow products are currently being used by some of the World's top universities and other prominent research facilities.

#### **Key Features:**

- 1% optical noise (20 Hz-20 MHz)
- · Air cooled no need for water cooling or external chiller
- Lightweight, compact design
- Efficient DPSS technology runs on standard AC power (85 264 V, 47 63 Hz)
- >10,000 hours continuous maintenance-free operating life
- FDA CDRH Compliant Class IIIb / Class IV enclosure
- 48-hour replacement coverage available for an additional fee on specific models

#### Package Includes:

- Laser Head
- Driver/Power Supply
- Power Cable
- Keys, Safety Interlock
- Hard-shell Carrying Case

### **Specifications:**

This spec sheet has been generated specifically for part number L54-M, per your request, and data for the entire series is also displayed for your reference. The specs which are specific to L54-M have been highlighted below in **red + bold**.

| Output Power (mW)                                     | >20, >50, >100                | >200, >500, >1000, >1500  |
|---|-------------------------------|---------------------------|
| Output Power<br>Stability (%RMS/4h)                   | <1, <3, <5                    | <3, <5                    |
| Central Wavelength (nm)                               | 542.1                         | 542.1                     |
| Wavelength<br>Tolerance (+/- nm)                      | 1                             |                           |
| Divergence (mrad, full angle)                         | <1.5                          | <1.5                      |
| Beam Dimensions (mm, 1/e²)                            | 1.2                           | 3                         |
| Warm-up Time (minutes)                                | 10                            |                           |
| Optical Noise<br>Amplitude (%RMS<br>@ 20 Hz - 20 MHz) | <1                            |                           |
| Spectral Linewidth (nm)                               | <0.15                         | <0.15                     |
| M²  | <1.2                          | <3                        |
| Polarization Ratio                                    | >100                          |                           |
| Beam Pointing<br>Stability (mrad)                     | <0.05                         |                           |
| Operating<br>Temperature Range<br>(°C)                | 10 to 35                      |                           |
| Max. Power Input<br>Duty Cycle                        | 100%                          | 100%                      |
| Standard Warranty (months)                            | 12                            | 12                        |
| MTTF (operational hours)                              | 10000                         | 10000                     |
| Weight of Product or<br>Laser Head (kg)               | 0.6                           | 2.6                       |
| Beam Height from<br>Base Plate (mm)                   | 24.8                          | 68.2                      |
| Dimensions of<br>Product or Laser<br>Head (mm)        | 140.8 (l) x 73 (w) x 46.2 (h) | 240 (I) x 99 (w) x 94 (h) |

CW: All specifications are based on performance at full output power and after the specified warmup period. Output characteristics may change if the laser is run at a different power level.

Q-Switched: Specifications are based on the laser pulsing at the specified design frequency. Output characteristics may change if the laser is run at a different frequency.

#### **Power Supply Options:**

These lasers are available with several different power supply options. The model that you have selected is highlighted below, and any other options are shown for easy reference.

|                        | Power Supply Type:          | SM                            | SN                             |
|------------------------|-----------------------------|-------------------------------|--------------------------------|
| FDA-Compliant Standard | Input Power                 | 85v to 264v                   | 85v to 264v                    |
|                        | Power Supply<br>Weight (kg) | 1.2                           | 2.3                            |
|                        | Dimensions (mm)             | 133 (l) x 130 (w) x<br>65 (h) | 238 (I) x 146 (w) x<br>102 (h) |

<sup>\*</sup>Power supply may not be exactly as shown, see dimensional drawings on next 2 pages.

## **Regulatory Classification:**

The model you have selected (L54-M) requires the following safety label(s):

<sup>\*</sup>Dimensions for fiber-integrated (I\_) include laser head packaged inside.

## **Dimensional Drawing - Laser Form Factor: M:**

#### **Accessories:**

The most popular accessories for model L54-M are shown below. For additional details regarding these or other accessories please see our website or contact us directly.

| Part Number | Description  |                     |
|-------------|--|---------------------|
| ACFVISHXA   | FC/PC Fiber Coupler/Collimator for visible spectrum wavelengths (400 to 700 nm) (installed and aligned) 11mm diameter input lens Full Details: <a href="https://www.arktislaser.com/ACF">www.arktislaser.com/ACF</a>   |                     |
| ACSVISHXA   | SMA-905 Fiber Coupler/Collimator for visible spectrum wavelengths (400 to 700 nm) (installed and aligned) 11mm diameter input lens Full Details: <a href="https://www.arktislaser.com/ACS">www.arktislaser.com/ACS</a> |                     |
| AGF5565XX   | LSG-556-NF-5 Fit-Over Safety Goggles 556nm Output: OD 5+ at 190-579 nm CE Certified Full Details: <a href="https://www.arktislaser.com/AGF">www.arktislaser.com/AGF</a>  |                     |
| AFF2002XX   | Armored Fiber With FC/PC Connectors 200um Core Multimode 2m length Full Details: <a href="https://www.arktislaser.com/AFF">www.arktislaser.com/AFF</a>   |                     |
| AFS2002XX   | Armored Fiber With SMA 905 Connectors 200um Core Multimode 2 m length Full Details: <a href="https://www.arktislaser.com/AFS">www.arktislaser.com/AFS</a>  |                     |
| TBK         | Complete optics kits with breadboard mounting hardware. External modulators, variable attenuators, free-space fiber launch systems Full Details: <a href="https://www.arktislaser.com/TBK">www.arktislaser.com/TBK</a> |                     |
| ACALBMXXX   | Carrying Case-102 Holds Lab/OEM M, R and S size, standard or LabSpec laser Full Details: <a href="https://www.arktislaser.com/ACA">www.arktislaser.com/ACA</a>   | Included With Laser |
